Project Name	Project - Signs with smart connectivity for Better road safety
Maximum Marks	4 Marks

Signs with smart connectivity for Better road safety

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and the user's account 'Dhanush kumar g's Acc...'. The main content area is titled 'Dashboard' and features a 'For you' section with several service tiles: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services.), 'Build and deploy Node.js apps' (Go from zero to production in minutes with your Node.js applications, integrate with Watson and other services, scale your microservices.), 'Use Watson Studio' (Watson Studio provides a suite of tools and a collaborative environment for data scientists, developers and domain experts.), and 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources.). Each tile includes a 'Getting started' button and a duration (15 min, 2 min, 10 min, 7 min respectively). On the right, a user profile dropdown for 'Dhanush kumar g' shows options like 'Profile', 'Log in to CLI and API', 'Privacy', 'Change theme', and 'Log out'. The bottom of the dashboard has sections for 'User access', 'News', and 'Planned maintenance'. The Windows taskbar at the bottom shows the date as 06-11-2022 and time as 21:05.
